

TECHNICAL DATA SHEET

Sodium Benzoate

PRODUCT NAME:

SODIUM BENZOATE POWDER/BENZOATO DE SODIO POLVO

SODIUM BENZOATE EXTRUDED/BENZOATO DE SODIO EXTRUIDO

SODIUM BENZOATE GRANULAR/BENZOATO DE SODIOGLOBULAR

SYNONYMS : Benzoic acid, sodium salt; Sodium benzoate.

[Appearance] White granule or crystalline powder, no savor or a bit benzoic savor

[Molecular formula] C 7 H 5 NaO 2

Molecular weight: 144.11

CAS:532-32-1

Specification(Physical, chemical, microbiological):

Content	99.0% -100.5%
Loss on drying %	1.5% max
Heavy metals %	0.001%max
Chloride (CL)%	0.02% max
Total Cl Content%	0.03% max
Arsenic%	0.002%max
Colour (Co-Pt)	20

Packing:

In 25kgs plastic -woven bags or kraft paper bag.

Total 16mt without pallet or 13mt with 20pallets in each 20' FCL.

Storage conditions:

Store in shady,cool and dry place.

Useful life: 2 year.

Declaration of allergens:

We, Tianjin Dongda Chemical Group Co., Ltd ,hereby confirm that the product sodium benzoate ,not include any allergen.

Country of origin: China.

Ingredients:Sodium Benzoate.

Production method:

Sodium benzoate powder

benzoic acid }
sodium hydroxide } neutralize→decolor (active carbon) →leach→dry and slice up→measure and pack

Sodium benzoate extruded

benzoic acid }
sodium hydroxide } neutralize→decolor (active carbon) →leach→extruded→drying→measure and pack
